# Color-Coded Fraction Manipulatives

Color-coding helps students apply their understanding of fraction concepts to new contexts. Students will begin to make mathematical connections when they see that pink always means  $\frac{1}{2}$ , yellow always  $\frac{1}{4}$ , and so on—whether they're working with our cubes, circles, squares, or tiles.

## Rainbow Fraction® Circles & Squares

Circular, rectangular, and square pieces provide a multisensory way for students to explore equivalencies and practice adding, subtracting, and comparing fractions. Each set includes 9 circles or squares (1 whole,  $\frac{1}{2}$ ,  $\frac{1}{3}$ ,  $\frac{1}{4}$ ,  $\frac{1}{5}$ ,  $\frac{1}{6}$ ,  $\frac{1}{8}$ ,  $\frac{1}{10}$ , and  $\frac{1}{12}$ ), a combination work tray, and storage box. Circles measure  $3\frac{1}{2}$ " in diameter each and squares measure 4"L x 4"H each. **Grades 1+ | Ages 6+**

## Sound Wall Card Set

This set includes everything teachers need to build and organize a sound wall in their classrooms. Once built, they can use the sound wall to systematically and explicitly teach letter sounds—an important building block of reading instruction. Includes 190 cards that are sized so the completed Sound Wall fits comfortably in an average-size classroom. Consonant Chart is 33" wide x 51" high. Vowel Valley is 37" wide x 47" high. Teacher-developed Getting Started Guide includes blackline masters of the Consonant Chart and Vowel Valley so students can have a handy desk reference.

## Mirror My Sounds Phoneme Set

Children can practice making 44 sounds of the English language with this easy-to-use, all-in-one set. They use the included booklet to see the correct mouth and tongue position for each sound while the mirror helps them see themselves as they make the sound. This one-of-a-kind set is the perfect solution for teaching explicit phonetics to early readers. Durable, conveniently sized case has a built-in kickstand and comfortable side grips. Activity Guide provides step-by-step instructions.

## 3D Sound & Phonics Cards

These cards cover 47 different sounds in the English language and are ideal for children who need practice in phonetic decoding and encoding as well as speech. The front of each card presents a close-up view of a mouth. When children tilt the lenticular card, they see the mouth “move” and watch the sound being formed so they can mimic the movement themselves. Teacher-developed Getting Started Guide provides step-by-step instructions for using the cards. Great for early readers, children with speech and language difficulties, and English language learners.
